University of Melbourne, The Royal
Melbourne Hospital*

Convenor: Dr Simon Permezel
Email: swgp@bigpond.com

The program will include key note lectures from our guests and from members, Scientific and Walsh papers (after Frank Walsh who held the first Annual Neuro Ophthalmology Pathology Symposium in 1969). A brief account of the clinical history and physical signs is presented. The audience discusses the likely pathology which is then presented. Professor Brian Tress and Dr Pramit Phal, Neuroradiologists will discuss the radiology, Dr Renate Kalnins, Neuropathologist will discuss the neuropathology cases. All delegates will receive a copy of the first paper. The "answers" with references will be available at the end of the meeting.
